Norfolk will not be represented in the Virginia League, owing to the uncertainty of available base-ball players. The association met at the Monticello Hotel last night and decided, after thorough discussion, not to enter the league. The matter was easily forthcoming, but it was decided that the heavy expense that was necessitated for out of town games made the venture too risky for the capitalists. Two acts of Rabbi H. ROANOKE WATER Cause of the Discoloration of the Famous Crystal Spring.

(Special to The Times-Dispatch.)
ROANOKE, VA., May 12.—Roanoke has taken special pride in the clear water of Crystal Spring. About two months ago the water became muddy. It was at first thought that the discoloration was caused by work in the Rorer Mines, it being believed that the mines were on the same vein of water. Investigation showed that this was not the cause, and later the water company made an investigation and declared that it was due to a cave-in under Yellow Mountain. Still the water remained muddy. Yesterday the water was drawn from the reservoir, and in the south end there was discovered a hole, through which the water had worked into red clay for about two hundred feet back to the spring, and it is now believed that was the cause of the muddy water.

An undercurrent of favorable sentiment has been at work in Petersburg for some time, and the fact that the Stuart meetings are at hand just at a time when the whiskey question is being so much discussed gives much anxiety to those engaged in the business. The Old Dominion Land Company is the wealthiest corporation of its kind in the South, and it has been impossible to buy its stock for some years. It owns considerable valuable waterfront property in and out of the city, together with many house lots and large tracts. Mr. Orcutt to-day sent a telegram here from New York denying that he had obtained control of the Old Dominion Land Company or that he had any negotiation with the Goulds respecting Newport News. It is known that Mr. Orcutt recently made overtures to stockholders for their shares at \$10 each, and in his statements he said that he had secured options on sixty per cent. of the stock.
